1

User Registration and Activation Code

Fill out all required fields and agree to the terms of conditions. Enter Activation Code sent at time of purchase into the Activation Code field in your user profile to unlock the trial version. Note: Additional bio fields are available but not required.

Trial Version is limited to eight (8) questions and answers.

2

Starting A Study Session

Once registered, you will be given a choice of four (4) categories to study (General, Airframe, Powerplant, and Avionics). Choose the amount of cards in the deck you would like to study (1-400). You can also choose to shuffle the deck.

[Click Start Session to proceed.](#)

3

Flashcard Navigation

Once you click Start Session you will be presented with the first card in the deck chosen either in sequential order or shuffled based on user preferences selected in Step 2. Click/tap the card to flip it and check your answers. You can advance to the next card without click/tapping back to the question side of the card.

4

Finished Session

Click the Finish Session icon to review your session stats. The sessions are numbered and dated to help track your progress. These stats are also available in your user profile page.

5

New or Restart Session

Once your session is finished you may restart using the same settings as the previous session or you can change to a new set of parameters and restart a new session.
